

Exceptional NDIS support services In-home and in the community

Absolute Supports

Absolute Care & Health offers personalised, reliable support services under the NDIS. We have a wealth of experience across in-home and community care and bring a fresh, professional edge with a commitment to quality and reliability.

Through partnerships with case management providers, the Transport Accident Commission, public and private hospitals, allied health professionals and direct with the community, we offer client services that go above and beyond.

Our commitment to you is responsive, tailored care, with experienced and reliable support workers. As you would expect, our staff have appropriate qualifications and hold police and working with children and vulnerable people checks.

We also provide further training in specific areas such as acquired brain injury and dementia care as well as vital soft-skills and cultural training.

And because we totally get that no-shows and constantly changing support workers can be more of a hinderance than a help, our dedicated coordinators are highly responsive and help ensure absenteeism rates are as low as they can go.

- Assistance in coordinating and managing life stages, transition and supports
- Innovative community participation

JOAN, MOTHER OF MATTHEW, NDIS PARTICIPANT AND ABSOLUTE CARE & HEALTH CLIENT

"He looks forward to seeing his carer every time she comes down. He loves going on long drives in the car, where they can talk and spend time together and it really feels like she has become a part of the family. She even came down to our holiday place for his care and he absolutely loved his time with her."

We'd love to hear from you
