

Exceptional Nursing Services

ABSOLUTE
— CARE & HEALTH —

Committed to delivering **patient- centred care**

Absolute Care & Health provides a wealth of experience across in-home and community nursing care.

We offer a fresh approach to patient-centred care through commitment to quality and reliability.

Our seamless range of Nursing and Personal Care Assistant Services are designed to support the transition from hospital to home; and provide ongoing care to support the patient recovery journey.

Partnership in patient-centred care

We work in partnership with case management providers, public and private hospitals, allied health professionals and direct with the community. We are also registered with the Transport Accident Commission (TAC).

With increasing demand on clinicians and hospital care services, we can provide an expert at-home nursing solutions pathway to assist with the patient recovery journey after discharge from hospital.

We partner to provide exceptional, reliable nursing and personal care services with the highest quality of care.

Committed to delivering patient-centred care for our referral partners.

Post-acute nursing services

Absolute Care & Health provides an experienced team of nurses to deliver expert community nursing care to patients in their home.

Absolute Care & Health has a dedicated team of nurses who understand the importance of quality nursing care for patients recovering at home after hospitalisation. Our dedicated nursing coordinator is available to discuss patient needs, manage our nursing team appointments or to discuss any nursing service request.

Comprehensive nursing services

- Wound care
- Medication administration and injections
- Catheter changes and bowel care
- PEG feeding
- Cervical collar care
- Stitches and staples removal
- Nurse assessments and regular health & vital signs monitoring
- Continence management

Blended Services

Absolute Care & Health offers a 'blended' model of nursing and personal care assistance which provides a complete care solution to support patients.

Our nurses and personal care assistants (PCA's) work closely together, with guidance and training provided to PCA's where needed, for individual clients with specific needs.

This can include assistance with urinary catheters, cervical collars, vital sign recording including blood sugar levels and any other needs that may arise.

Holistic care

- Nursing services
- Domestic support and home help
- Personal care and wellbeing
- Transportation
- Comprehensive care
- Respite care

Our values

Above & beyond. *Everyday.*

We go all out to truly delight our customers, our team members and our stakeholders.

Create belonging. *Everywhere.*

We bring people together. We work as a family with colleagues, clients and stakeholders.

Re-imagine. *With purpose.*

We use initiative, innovation and inquisitiveness. No matter how big or small the challenge.

We get you. *Absolutely.*

We truly empathise. We ask ourselves what others are feeling and we actively seek to understand.

**It's the close-knit
team of people at
Absolute that makes
us stand out from
the rest.**

Start Referring

Absolute Care & Health accepts referrals for clients who are funded through hospital programmes (eg. HITH, PAC or other), NDIS, TAC, Work Cover, My Aged Care (Home Care Package), and those who wish to fund their care privately.
